### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sander Rabin on 31 March 2006.

The application has been amended as follows:

In claim 1: after the last line delete "." and insert

--,

wherein said electromagnetic wave exposure device comprises a slit beam of a slit beam projection lamp and said imaging device comprises a Scheimpflug videography system.--

In claim 13: after the last line delete "." and insert

--,

wherein said step of simultaneously exposing comprises simultaneously illuminating said eye using a slit beam of a slit lamp projection lamp and said step of simultaneously imaging comprises simultaneously videographing said eye using a Scheimpflug videography device.

Claims 6, 15 and 17-19 are hereby cancelled.

2. The following is an examiner's statement of reasons for allowance:

Art Unit: 3735

3. The closest prior art of record is shown by the patents to Vogelsang and Nanjo, of record.

Vogelsang discloses a method and device for measuring the dynamic behavior of the eye wherein wavefront imaging of the eye is performed during dynamic accommodative stimulation using Badal optic target projection. However, Vogelsang does not teach or suggest a device for dynamic Scheimpflug imaging during an accommodative stimulation. Nanjo discloses a Scheimpflug photographic apparatus for imaging the lateral cross-section of the anterior chamber of the eye. However, Nanjo does not teach or suggest the use of dynamic Scheimpflug imaging during accommodative stimulation using Badal optic target projection. Thus the prior art does not expressly disclose or render obvious the limitations of a device incorporating Scheimpflug videography of the anterior chamber during dynamic accommodative stimulation via Badal optic target projection.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John R. Sanders whose telephone number is (571) 272-4742. The examiner can normally be reached on M-F 8:30 am to 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patricia Bianco can be reached on (571) 272-4940. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
